First, Do No Harm. ZERO by 2030

Program

The Masimo Foundation for Ethics, Innovation, and Competition in Healthcare

Our mission is to encourage and promote activities, programs, and research opportunities that improve patient safety and deliver advanced healthcare to people worldwide who may not otherwise have access to lifesaving technologies.

Dear Friends,

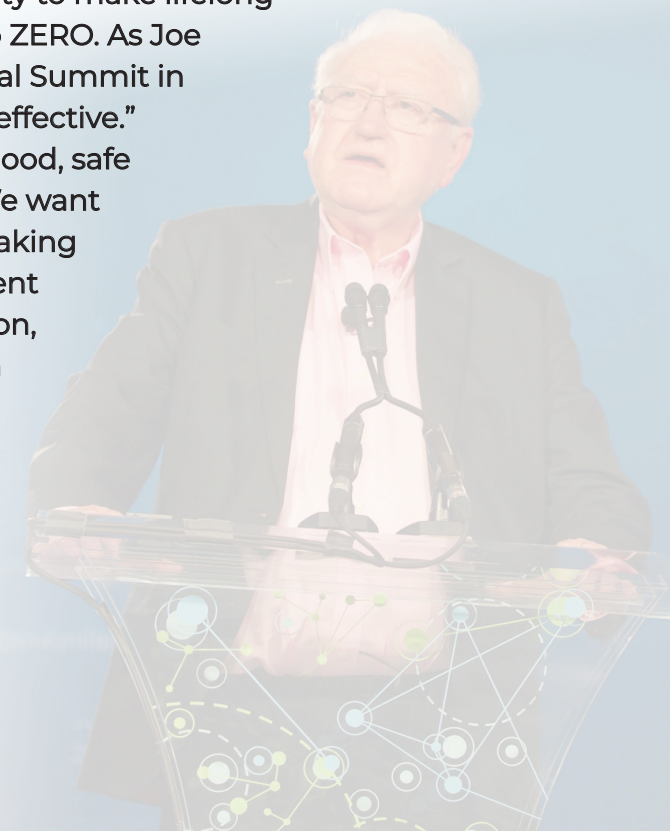

Welcome to the 11th Annual World Patient Safety, Science & Technology Summit! We are honored to host world-renowned patient safety experts who will address the latest challenges and opportunities in healthcare systems worldwide and discuss innovative solutions. Topics such as the integration of real-time data from electronic medical records, the role of artificial intelligence, and the implementation of a culture of safety will be highlighted to show how we can achieve our goal of zero harm. Additionally, hearing moving patient stories throughout our program will remind us why we must remain committed to this cause.

Our main theme will adhere to the timeless words of Hippocrates from 2,500 years ago: “First, Do No Harm.” We will emphasize that patient safety is a collaborative effort between healthcare workers, patients, administrators, and all involved to achieve optimal outcomes. We will tackle the challenges of implementing Actionable Evidence-Based Practices and highlight the positive transformations in healthcare systems when data transparency is practiced. To create meaningful change, it is crucial to know the facts about adverse events—such as the frequency of preventable patient harm, the categories of harm, and who are the most vulnerable patient populations—and to make this data publicly accessible. Physicians, nurses, pharmacists, and the complete healthcare team absolutely are mortified when a patient experiences preventable harm during their care. They want proven solutions put in place immediately.

We are grateful for the diverse range of patient safety experts, patients and their families, physicians, nurses, healthcare system leaders, global safety organization leaders, academicians, MedTech executives, and politicians from around the world who are present at this summit. This is a unique opportunity to make lifelong connections and meet your partners in our journey to ZERO. As Joe Kiani said in his keynote speech at the WHO Ministerial Summit in February 2023, “Actions out of kindness are the most effective.” Those who know him recognize his commitment to good, safe healthcare. If you see me or Sanaz, please say hello. We want to meet you and learn how you are contributing to making healthcare safer. Rest assured, we are advancing patient safety faster than ever before, thanks to your dedication, passion, and the transparent outcomes achieved with global and, most importantly, patient input.

Thank you for being here.

Michael Ramsay, MD, FRCA
CEO, Patient Safety Movement Foundation

**DAY ONE
FRIDAY, SEPTEMBER 6**

7:30 am – 9:00 am Registration

9:00 am – 12:00 pm Morning Program

CEO Welcome Message
Dr. Michael Ramsay
Chief Executive Officer, Patient Safety Movement Foundation

Founder State of the Movement Speech
Joe Kiani
Founder and Past Chair, Patient Safety Movement Foundation, Founder, Chair, and CEO, Masimo Corporation

Patient Story #1

Speaker
Dr. Diana Ramos

Panel 1: The Role of the Board and C-Suite in Fostering a Culture of Safety
Joe Kiani
Kimberly Cripe
Dr. Marcus Schabacker
Tom Jackiewicz
Chad Lefteris

Break and Networking

Panel 2: Using Real-Time Data from Electronic Medical Records
Dr. Philip Lumb
Dr. Mark Konrad
Dr. David Stockwell
Barbara Fain
Drew Ladner
Ruth Ann Dorrill

Speaker
Dr. Don Berwick

Speaker
Scott Hamilton Kennedy

12:00 pm – 1:00 pm Lunch

1:00 pm – 7:00 pm Afternoon Program

Speaker
Dr. Henrietta Hughes

Speaker
Dr. Najm Meshkati

Panel 3: Advancing Safety Through Systemwide Collaboration
Dr. Michael Ramsay
Dr. Walter Peters
Lisa Athens
Pete McCanna
Dr. Elizabeth Papaila

Speaker
Dr. Craig Umscheid

Break and Networking

Speaker
Dr. Evan Benjamin

Speaker
Dr. Abby Towfigh

Patient Story #2

Speaker
Dr. Michelle Schreiber

Speaker
Dr. Peter Ziese

Alarm Fatigue

 Anesthesiology, Vice Chair, Professional
 and Business Development, Department
 of Anesthesiology and Perioperative
 Medicine, UCLA

Michael L. Millenson, BA
 President, Health Quality
 Advisors LLC

“They say sunlight is a disinfectant. Well, transparency is the greatest disinfectant. We can learn from each other. It is unacceptable that we lack clarity on the true number of patient harm events.

Joe Kiani, Founder
 Patient Safety Movement Foundation

Panel 1: The Role of the Board and C-Suite in Fostering a Culture of Safety

This panel explores the critical role of the Board and C-Suite in fostering a culture of safety within healthcare organizations. Leaders discuss strategies for driving patient safety initiatives, embedding safety into the organizational culture, and ensuring accountability at all levels. Through real-world examples, the panel highlights how executive leadership can create an environment where patient safety is a top priority.

Moderator:
Joe Kiani, MS

Panelists:
Kimberly Cripe, MPA
Marcus Schabacker, MD, PhD
Tom Jackiewicz, BBA, MPH
Chad Lefteris, BS, MS, FACHE

Panel 2: Using Real-Time Data from Electronic Medical Records

This panel examines how real-time data from Electronic Medical Records can be leveraged to enhance patient safety. Experts discuss the integration of EMRs into daily workflows, the benefits of using real-time data to prevent errors, and how to effectively utilize EMR data to improve clinical decision-making and patient outcomes.

Moderator:
Philip Lumb, MB, BS, MD, MCCM, FCCP

Panelists:
Mark Konrad, MD
David Stockwell, MD, MBA
Barbara Fain, JD, MPP
Drew Ladner, MA, MBA
Ruth Ann Dorrill, BS, MPA

Panel 3: Advancing Safety Through Systemwide Collaboration

The Baylor Scott & White team explore how systemwide collaboration can advance patient safety. This organization leaders discuss strategies for fostering cross-functional teamwork, sharing best practices, and building a unified approach to safety across healthcare organizations. The focus will be on leveraging partnerships to create a culture of safety that permeates all levels of care.

Moderator:
Michael Ramsay, MD, FRCA

Panelists:
Walter Peters, MS, MBA
Lisa Athens, JD
Pete McCanna, BS, MS
Elizabeth Papaila, MD

Panel 4: Resilience in Healthcare

This panel addresses the importance of resilience in healthcare, focusing on how healthcare professionals and organizations can adapt to challenges while maintaining patient safety. Experts shares strategies for building resilience, managing stress, and creating a supportive environment that prioritizes well-being and safety in the face of adversity.

Moderator:
Robin Betts, RN, CPHQ, MBA-HA

Panelists:
David Nash, MD, MBA
Patricia Mack, MD
Brandyn Lau, MPH
Steve Barker, PhD, MD

Panel 5: Engaging Patient and Family Members

This panel explores the vital role of engaging patients and their families in the healthcare process, emphasizing how their involvement can enhance patient safety. Experts discuss best practices for fostering collaboration, improving communication, and empowering patients and families to actively participate in care decisions, ultimately leading to better health outcomes.

Moderator:

Steve Barker, PhD, MD

Panelists:

Tracy Young, MSNA, MBA, CRNA

Joe Carmichael, MD

Vonda Vaden Bates, BA

Carole Hemmelgarn, MS

Roundtable: Global Interprofessional Patient Safety Fellowship

This roundtable discussion features panelists from the Patient Safety Movement Foundation's Global Interprofessional Patient Safety Fellowship program. They will share their personal experiences and insights on how the fellowship has empowered them to drive significant improvements in patient safety within their organizations and regions.

Moderator:

Sanaz Massoumi, MS, PhD

Panelists:

Afifa Munawar, BScN, MSPH

Natalia Camargo, RN

Angeli Merci Mejia Porto, MD, FPOGS

Luis Torres Torija Arguelles, MD, MBA, MPH

Panel 6: Global Patient Safety

This panel addresses the challenges and opportunities in improving patient safety on a global scale. Experts from various regions share insights on best practices, international collaborations, and innovative strategies to reduce harm and enhance healthcare quality worldwide.

Moderator:

Mike Durkin, OBE, MBBS, FRCA, FRCP, DSc

Panelists:

Ali Asery, MBBS, MD, DCH, CSBP, CABP, SQIL, MHA

Jannicke Mellin-Olsen, MD, DPH

Stacey Orsat, BA

Carol Peden, MB ChB, MD (Res), MPH FRCA, FFICM, FACHE

A Partnership Toward ZERO Harm

The Patient Safety Movement Foundation has been built on collaboration and partnership. These committed hospitals are using our Actionable Evidence-Based Practices in their efforts to reach ZERO preventable harm.

SPONSORS

We extend our sincere gratitude to our generous sponsors for their invaluable support in making this event possible.
